

MAYA AKTER MITA

Trainee DevOps Engineer / Full-Stack Learner

 **Email:** mayamita.1143@gmail.com

 **Contact:** +880 1301371143 (WhatsApp)

 **Location:** Mohammadpur, Dhaka, Bangladesh

 **GitHub:** github.com/mita365

 **Portfolio:** my-portfolio-nu-mauve-72.vercel.app

PROFESSIONAL SUMMARY

Highly motivated and detail-oriented DevOps Engineer and Full-Stack Learner with practical hands-on experience in cloud infrastructure automation, CI/CD pipeline implementation, and containerized application deployment. Possesses a solid foundation in Linux systems, automated configuration management, and modern version control systems. Adept at bridging the gap between frontend development, backend logic, and production operations to improve deployment efficiency, maximize cost-efficiency, and ensure high system reliability.

TECHNICAL TOOLKIT

DevOps & CI/CD	Jenkins, GitHub Actions, GitLab CI
Containers & Orchestration	Docker, Docker Compose, Kubernetes (K8s)
Cloud Platforms	AWS (EC2, S3, IAM, VPC, CloudWatch), GCP, Azure (Basics)
Automation & IaC	Ansible, Bash Scripting, Python (Terraform - Actively Learning)
Frontend Development	HTML5, CSS3, JavaScript (ES6), React, Next.js
Backend & Databases	Node.js, Python, MySQL (Database Design, Performance & Backup)
Monitoring & Logging	Prometheus, Grafana, AWS CloudWatch
Systems & Networking	Linux (Ubuntu, CentOS / Red Hat Administration), DNS, Load Balancing, Firewalls

PROFESSIONAL EXPERIENCE

DocTime Limited
Intern DevOps Engineer

Feb 2024 – May 2024
Dhaka, Bangladesh

- CI/CD Workflow Automation:** Designed and implemented deployment pipelines to streamline build, test, and production release frameworks.
- Container Orchestration:** Managed, configured, and scaled microservices architectures using Docker containers and Kubernetes clusters.
- Infrastructure & Web Servers:** Configured and maintained Apache web servers for reliable high-availability enterprise web application hosting.
- Scripting & Automation:** Developed customized Python and Bash shell scripts to automate recurring operational tasks and server maintenance.
- System Monitoring:** Implemented comprehensive monitoring metrics utilizing Prometheus and Grafana to track system health and resolve bottlenecks.
- Database & AWS Support:** Administered MySQL databases with routine backups while simultaneously optimizing infrastructure costs on AWS.
- Configuration Management:** Utilized Ansible playbooks for automated server configurations and system administration routines across Linux environments.

EDUCATION

B.Sc. in Computer Science & Engineering <i>Southeast University</i>	In Progress Dhaka, Bangladesh
Diploma in Computer Science & Engineering <i>Shyamoli Ideal Polytechnic Institute</i>	Graduated: 2023 Dhaka, Bangladesh

KEY STRENGTHS & CORE VALUE

- **Infrastructure Ownership:** Maintaining a strict reliability mindset across active pipelines and runtime cloud environments.
- **Cross-Functional Collaboration:** Bridging communication effectively between agile engineering squads and system operations.
- **Adaptability & Agile Problem Solving:** Swiftly diagnosing network failures, security vulnerabilities, or application crashes with structured optimization workflows.
